

JOURNEY[◇] DEUCE[◇] Bi-Compartmental Knee System

The innovative JOURNEY DEUCE Bi-Compartmental Knee System is a revolutionary concept where the medial tibiofemoral compartment and patellofemoral compartment are replaced with a single femoral component. The JOURNEY DEUCE system is the first and only knee system to successfully retain ACL and PCL function, allowing more normal kinematics and proprioception throughout the range of motion. This knee system accommodates deep flexion, enables normal tibiofemoral axial rotation and provides patellar tracking throughout the entire range of flexion, while retaining the healthy lateral tibiofemoral compartment.

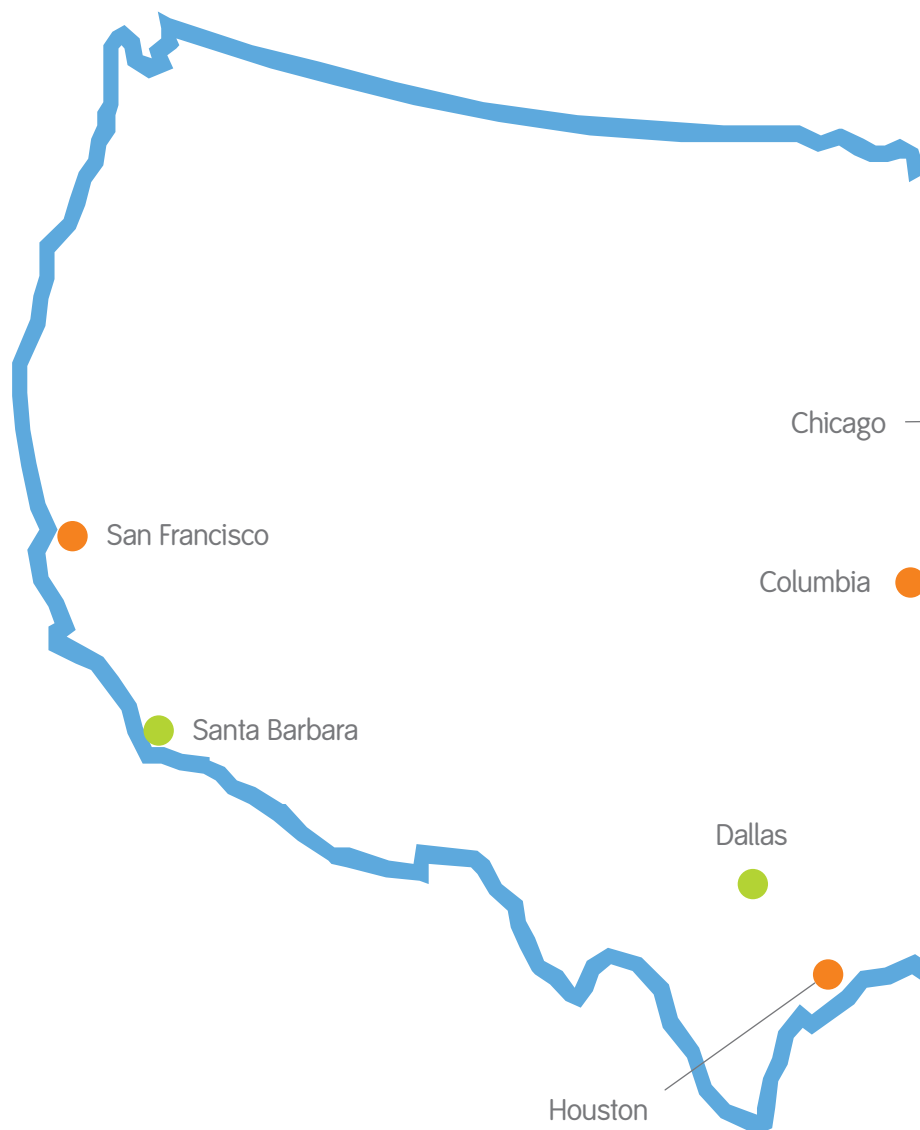

It is our goal at Smith & Nephew to give JOURNEY DEUCE knee surgeons multiple options for comprehensive training. In addition to our exceptional Contemporary Solutions in Joint Surgery (CSJS) programs, we are excited to offer a new extensive Visiting Surgeon Program (VSP), exclusively for the JOURNEY DEUCE Bi-Compartmental Knee System. This program will give the surgeon an opportunity to observe two or more JOURNEY DEUCE knee surgeries and the opportunity to discuss clinical issues with national key opinion leaders.

How to book a surgeon for a VSP

- Contact Trisha Conaley for possible surgery dates
- A confirmation email will be sent after the booking
- Coordinate with the FMD or market manager for didactic and sawbones presentation
- Order literature packages from Print on Demand
- Send JOURNEY DEUCE knee surgery schedule for VSP surgeon monthly to ensure training dates are set up in the system
- Meet the surgeon at the hospital on the day of surgery and take him/her to the OR

VSP locations for the JOURNEY DEUCE system

- Up and running
- Under development

2008 CSJS and MOBILAB[®] Training Courses for JOURNEY[®] high performance knee solutions

CSJS surgeon training courses* JOURNEY BCS and JOURNEY DEUCE

February 20–21	San Antonio, TX
March 26–27	San Diego, CA
April 17–18	Boston, MA
May 2–3	Las Vegas, NV
June 27–28	Charlotte, NC
August 14–15	Rosemont, IL
September 26–27	Orlando, FL
October 16–17	Washington, DC
November 7–8	Las Vegas, NV

*CSJS courses will be held in conjunction with BHR[®] hip training

MOBILAB Training Facility Courses JOURNEY BCS and JOURNEY DEUCE

April 3–4	Philadelphia, PA
April 25–26	St. Louis, MO

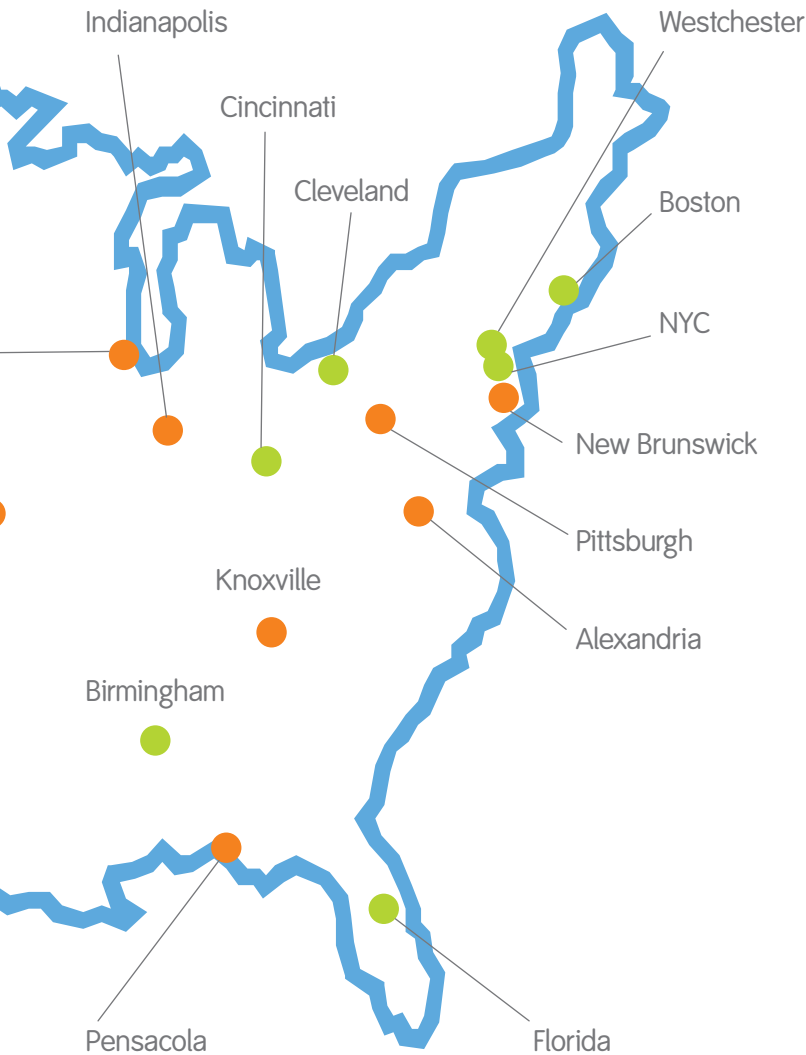

MOBILAB Training Facility Courses JOURNEY DEUCE

January 18	Jacksonville, FL
February 1	Pensacola, FL

For all meetings except Jacksonville and Pensacola MOBILAB Training Facility Courses:

Day 1: Dinner/faculty presentations beginning at 7 pm

Day 2: Demo/hands-on labs from 7 am – 5:30 pm
